babcockTM

THANK YOU TO OUR:

PLATINUM SPONSOR

GOLD SPONSOR

Technologies

WÄRTSILÄ

Thanks to our many sponsors:

We can do more, with more!

MARITECH 2019 Themes:

- Role of Marine Technical Societies as forums for open and collegial sharing of experiences
 - Continuous learning / Professional Development
 - Networking – Seasoned and Young Professionals
 - Opportunity for Peer to Peer / Cross-Generational interaction / Cross Industry-Gov-Acad
- Productivity – More work than people: therefore need for implementable innovation – people, product, processes and tools
 - “Innovate or Die” (sense of business acumen for increasingly highly technical, complex, complicated problems)
 - Relationships are the best ships – competition may not be your neighbour (Canada’s Ocean SuperCluster)
- People – need to attract from outside community
 - Need to to be able to rapidly recruit, assimilate and then retain

Passing the Torch:

- Schools and Scholarships
